Be sure you understand the instructions at the beginning of each section before you try to answer any of the questions that follow them.

#### SECTION 6

In the following passage, the numbered gaps indicate missing words. Against each number in the list below the passage, four options are given in columns lettered A to D. Choose the word that is the most suitable to fill the numbered gaps in the passage.

The life of a professional sportsman is always hectic. Consider his typical day. As soon as he wakes up in the morning, he jumps out of bed hurriedly and wears his -71—. Promptly, he goes out to -72— for an hour or so, covering a few miles. However, on some other days, he might choose to practise with the skipping -73— at home. Having completed whichever one it is, he goes in for a shower and dresses for the day's training -74—. This phase varies according to his speciality. If he is a boxer, he goes into the -75— to deal with the punching bag and later with a sparring partner, usually under the watchful -76— of his coach. If he is a sprinter, he engages in continuous practice, -77— his performance with a stopwatch. If he is in football, netball, volley ball, or lawn tennis, he can best practise with others while the coach watches, calling attention to specific skills and -78— not well mastered. In most cases, training lasts virtually the better part of a day, and often ends in discussions where certain technicalities are ironed out.

Now, when medals are -79, most people who just watch actions on the television hardly realize what it takes to become a star. When all the -80 — are considered and the high risks taken into account, one would realize that a star is worth the millions he earns.
